

# Adaptive Employee Experience: Mobile Device Shortcut

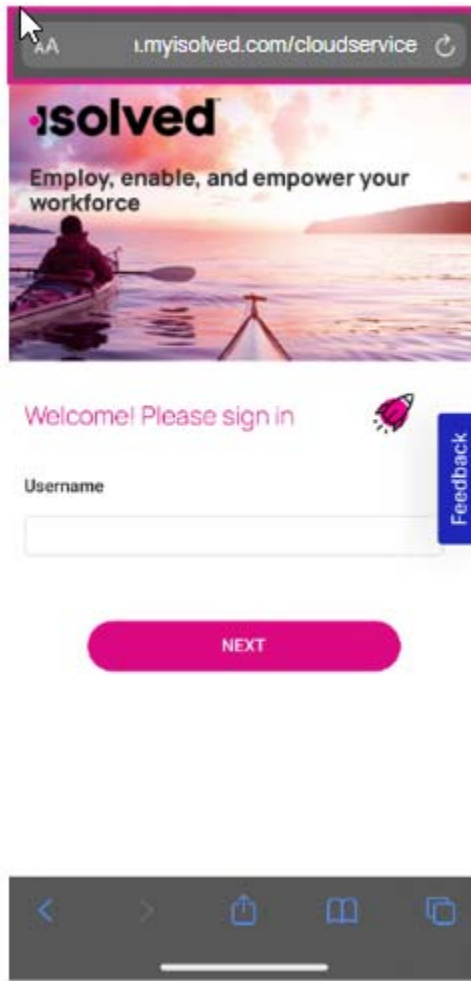

Step-by-step guide in transitioning to the new isolved user interface.

The purpose of this article is to explain how to create a shortcut icon on your mobile device for the isolved Adaptive Experience. You will not need to download a mobile application from the Apple or Android store. At the bottom of this article, there is a video displaying steps 1 through 4.

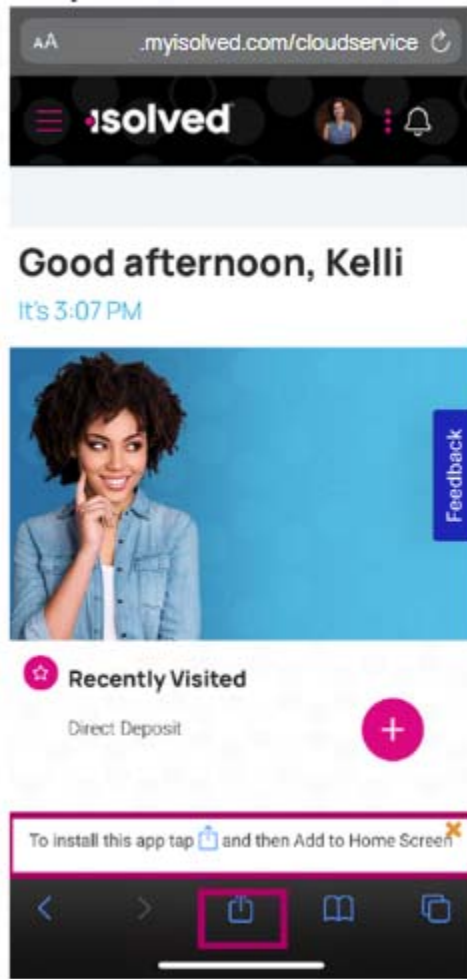

---

1. Navigate to your isolved login page on your mobile device browser:

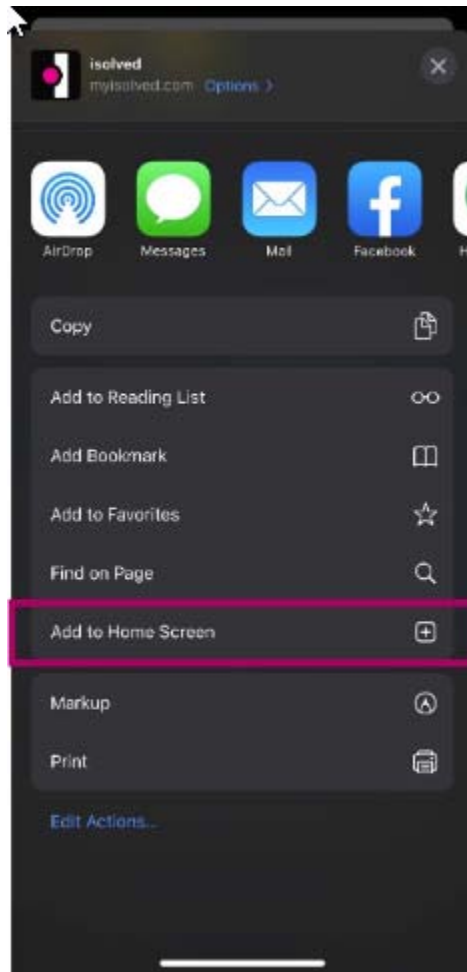

<https://employdrive.myisolved.com/cloudservice>

2. Once logged in you will be prompted at the bottom of the screen to install the app to your Home Screen. Tap the **Share Icon** in the middle to do so.

3. Select the "Add to Home Screen" link from the list of options.

4. The isolved app will be added to your mobile home screen for quick access.
